

IMAC PULSIMATIC TRANSMITTER

- SINGLE or Double independent outputs available
- FITS all types of industrial size meters with a vertical mechanical index
Diaphragm-----Rotary-----Turbine
- OPERATES at extremely low torque
- MOUNTS between meter and index or instrument
- IDEAL for Data Acquisition Systems
- AVAILABLE in the following pulses per revolution of drive shaft
1/2/5/10/20/50/100/1000
- ELECTRICAL CIRCUITRY

ELECTRICAL OUTPUT CONNECTION

1/2" NPT pipe or conduit adapter (plastic compression fitting is standard)

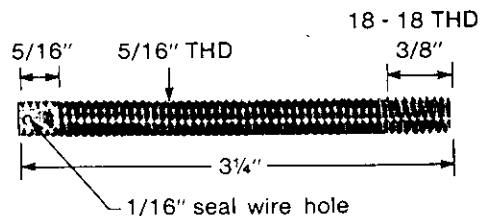

OPTIONAL EQUIPMENT

POWER AMPLIFIERS

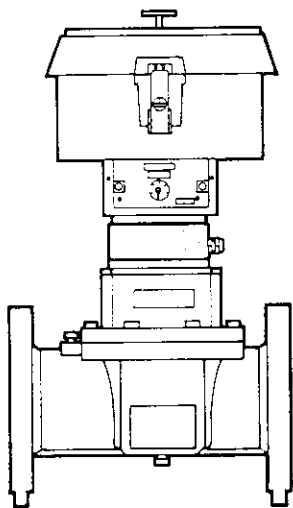

- Contact closure to 1/2" KW AC
- Intrinsically safe contact closure to 1/2" KW AC
- DC to DC Intrinsically Safe Barrier
- Remote Totalizers and Test Counters

INDEX & INSTRUMENT MOUNTING STUDS

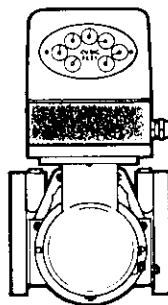

American Meter 3-1/4" Brass

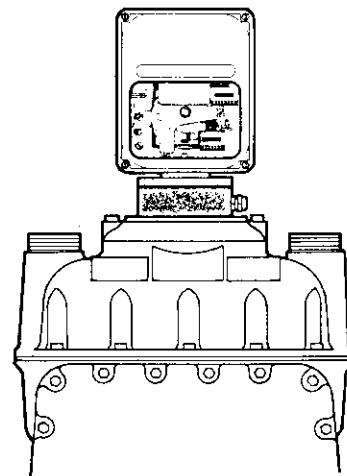

Also Available: Kits to retrofit mechanical correctors or TC Rotary Meters to obtain corrected count pulse outputs

MOUNTED BETWEEN TURBINE METER AND INSTRUMENT

MOUNTED BETWEEN ROTARY METER AND INDEX

MOUNTED BETWEEN DIAPHRAGM METER AND INSTRUMENT
